

(21)

This example is given to show that the VICTORIAN MORALITY CODE cannot stand to be challenged by an Aboriginal to a science that does not exist in the White civilized world.

So the theory to the Speed of Time must be presented as simple as A.B.C..

THE SPEED OF LIGHT is used to determine THE SPEED OF TIME, because LIGHT is a by-product of TIME, which had to have a theorem or formula on how it was created.

194,826.389(Light)miles per second which had a dimensional change factor(times) 180 = 35,068,750 miles per second, taking 2.6519337 seconds traveling from the SUN to Earth, is THE SPEED OF TIME.

This WAVE or STRAND now bounces off the Earth and accelerates to the Speed of(194,826.389 x 181)= 35,263,576.4 miles per second for a Duration in which the 12 powers or by-products are created. The reflection of TIME is faster than the original source.

Now, this is in direct conflict with the White civilized scientist, in Energy Engineering calculates that for every one(1)unit of energy used, can get only a return of 70.7% from its original source.

This is a Physic Law the White Man will give no ground to, even if there could be another system. He will collect his colleagues, to prove that there is no such theory or formula where the return is 100.0055248% of energy from its original source. Yet, these same scholars or scientist will follow Einstein and his theory---- $E=MC^2$  to an open ditch and fall in.

Where would one get this kind of energy? Would it come from Wood or Coal, Oil, Gas, Rasins, or Atomic Sources?

This again opens the question, where did Einstein get his formulas?

As a tribal member, I state from other tribal records that have either had members killed or murdered. so their voices would be extinct.

T I M E , is a slang expression from an Old English word- T I M A , which was the Aboriginal science to the Theory of TIME, which was exchanged for-

LATIN-Spatium and Futurus. These are the terms that Einstein had to follow in his Theory of Relativity.

This example is given to Show that the VUÉTORÈAN MORALITY CODE

Cannot stand to be Challenged by an Aboriginal to a science that does not exist in the White civilized world.

So the theory to the Speed of Time must be presented as simple as A.B.C. .

THE SPEED OF LIGHT is used to detrmine THE SPEED OF TIME, because LIGHT is a by-product of TEME, which had to have a theorem or formula on how it was created.

194,826.389(Light)miles per second which had a dimensional Chang@ factor(times) = 35,068,750 miles per second, taking 2 . 6519337 seconds traveling from the SUN to Earth, is THE SPEED OF TIME.

This WAVE or STRAND now bounces off the Earth and accelerates to the Speed of(194,826.389 X 181): 35,263,576.4 miles per second for a Duration in which the 12 powers or by-products are created. The reflection of TIME is faster than the original source.

Now, this is in direct conflict with the White civilized scientist, in Energy Engineering calculates that for every one(1)unit of enegry used, can get only a return of 70.7% from its original source.

This is a Physio Law the White Man will give @\_ ground to, even if there Could be another system. He will Collect his Colleages, to prove that there is no such theory or formula where the return is 100.0055248% of energy from its original source. Yet, these same scholars or scientist will follow Einstein and his theory----E: 2 to an open ditch and fall in.

Where would one get this kind of energy? Would it come from Wood or Coal, Oil, Gas» Rasins. or Atomic Sources?

This again opens the quesizicm, where did Einstein get his formulas?

As a tribal member, I State from other tribal records that have either had\_mernbers killed or murdared. so their voices would he exbinct.

- T I M E . is a slang expression from an Old English word- T I M A , which was the Aboriginalscēience to .the\_Thec>ry of TI.ME, which was exchanged for LATIN-Spatium and Futurus. These are the terms that Einstein had to follow in his Theory of Relativity.
