

## E X T I N C T

For all purposes and the reason for this chapter, I have taken EINSTEIN and his scientific writing as far-back as it can be taken, but there is no trail or references to continue on to Zero.

This conclusion is drawn because of Indian traditional teachings on the sciences of TIME and LIGHT, which to me is the beginning or Zero and as stated earlier-"...because the creation of fixed velocity was not in the original equation."- which would be-A PURELY ALGEBRAIC THEORY FOR THE DESCRIPTION OF REALITY AND THE BASIS FOR IT.

Now thats a mouthfull spoken by one that does not have educational credentials on these sciences.

But let me give a reasonable thought for you think out. You have only one reference from which to debate and that is EINSTEIN'S. Nothing else!

I on the other hand, have two theorys to compare from.

You can use the argument, that mine is not accredited! But I can come back and state, my traditional teachings are the most written about one subjects in the world, done by every country in the world, making it impossible for you to be ignorant to them, and they are the major subjects for students attending Institutions of Letters, and you have no accredited credentials to these subjects because the select few that are permitted to view ancient tribal records, cannot challenge tribal members to their own sciences.

I will now make a statement that has been translated by every Antiquity Scholar since the days of Julius Caesar in the year 4666, which in itself is an ancient equation. It has not only been translated from American Indian written documents, but from other tribes throughout the world that are today, extinct.

" ALL HEAT, COLD, LIGHT, DARKNESS, ELECTRICITY, MAGNETISM ARE EQUAL IN EQUATIONS."

Now, let a descendant of these sciences add what has been left out in the translations.

"ALL LIGHT, DARKNESS, HEAT, COLD, MAGNETISM, ELECTRICITY, GRAVITY, SOUND, VELOCITY, LOGICS, REASON, AND LANGUAGE§ called the 12 powers of time, created by THE CREATION OF A FIXED VELOCITY.

"+TIME against -TIME creating an a OPPOSING FORCE establishing a FIXED VELOCITY."
