According to the TE DEUM(Feb.18,1493); PAPAL BULL(May, 4,1493); THE TREATY OF TORDESILLAS(1494)and another PAPAL BULL(1494) all filed with The INTERNATIONAL COURT in HAGUE; and WESTWARD HO WITH THE ALBATROSS(1953); CHRONOLOGY OF THE DEEP OCEAN-BED,by Petterson(Quarterly Journal of Geophysics, I,1949; SCIENTIFIC AMERICAN, Petterson,Aug.1950)- the boundry lines of these Empires are known.

If we take the scientific report- THE VERO AND MELBOURNE MAN, by I. Rouse, Transactions of the New York Academy of Sciences, Ser.II,Vol.12 (1950), not only do they know the time of the last Ice Age within 2000 years, but what members of different tribes are descendants of MU or ATLANTIS, and that the American Indian had not changed in body structure, drying and cooking of foods, Dress, and method of living since the beginning of time, so they cannot be included in DARWIN'S THEORY OF EVOLUTION.

There is a tribe in Old Mexico that call themselves ATLANTES, who speak the same language of the Seneca People in the state of New York, so there is to much evidence and scientific reports, to put to sleep any debates.

I know of Indian Treaties that can piece together world history from July 2, 408AD through May of 1519AD, that cannot be found in any archives or educational Institutions.

Still other references that North and South America were at one time known as THE AMERICUS EMPIRE.

That the state names of CALIFORINA, and NORTH and SOUTH DAKOTA cannot be changed because of treaties signed long before COLUMBUS was born.
