

-10-

Their descriptions on how these Aircraft worked was remarkable. To begin, they called them ALCOIN or Iron Birds. AEREUS - They were made of Bronze or Brass but they were a Brass Vessel (AERIUS) rising into the Air with wild fire shooting out the back. (ALARA) and they had furnished wings. Inside the ship telling how it functioned, they described what they understood - ACTUARIUS - sort of ships Instruments. ACUS - magnetic needle, stylus, obelisk (to tip with steel) ACERARE COMPASS ADAMAS - Lodestone combined with Magnetic Iron Oxide and Diamonds, AERIFILUM - brass wiring.

Prosecution was asking punishment under DEUTERONOMY 17:9.

This was the issues and charges of the INQUISITION COURTS. Using IRON BIRDS that frightened the Soldiers off the Battlefield.
