

COMPLAINT:

It is the practice of Government employces at all levels, attorneys and judges, government and educational printings, and other information media, to state that the American Indians are citizens of the United States, which is untrue, but those that make this statement officially are held by (43 U.S.C.A. 1460) which is not to prejudicial the interests of the Government of the United States, and the review of Indian citizenship to the United States would reveal prejudicial practices by men on or in positions of authority that would break laws at city, county, state and national levels, which would break the structure of International Law which is law that all civilized European nations draw their authority and recognition.

BRIEFING:

To prove that American Indians are citizens of the United States, the burden of proof is on the White Man (1925, 34 Op. Atty. Gen. 439, 25 U.S.C. 194,) and the White Man here can be defined as his court system or any of the various functions that have authority in the United States. 3. Certificate of Eligibility. The place and date this certificate was used to purchase vacant land, and the date the land title was placed in the hands of the Secretary of the Interior, so that the 25 years which this Indian must wait so that a Bill can be presented to Congress relieving Guardianship, Alienation, and Severalty.
