

For all the times that American Indians have complained about living conditions on reservations, today we know that the original complaint was instituted by a sub-member to a White Special Interest Group, who were looking for a legal way and found it through a confrontation, to separate the Indian from tribal lands.

Those of use who joined in, had an entirely different reason for jumping on this wagon which may not agree with many environmentalist, because it appears to conflict with our title: GUARDIANS OF MOTHER EARTH, but it doesn't for one simple reason.

To carry out the duties as GUARDIANS OF MOTHER EARTH, legended as stories handed-down from the CREATOR, GREAT SPIRIT, one of the first duties was to keep the knowledges on how to control the forces of Nature.

TODAY! to not be able to count the fingers on one hand, are the number of Indians that can still make it Rain through a ritual, but cannot change Winter to Summer or a simple Rainfall to a Snow Storm. Without this knowledge we no longer can claim this title.

So, we as American Indians able to isolate this lost knowledge on the tribal time table, must continue on in this cycle by returning to the legends and stories to the END TIME, which may appear at times, that we have some kind of science to DESTINY or the FUTURE or to TIMES TO COME.

When we joined this Bandwagon as Indian Activist with ritual confrontat we had one simple function, that is the only vehicle to a known science which can disturb the coming events to DESTINY or the FUTURE.

Indian Confrontations such as ALCATRAZ, B.I.A.TAKEOVER, WOUNDED KNEE and OTHERS had only one Fragile Obliterating Conclusion- TO PROLONG DESTINY!  
NOT OURS , BUT YOURS !

Presently in the world, there are two schools of thought on an END TIME For the Common Intellectual people, an END TIME happens every 30 to 70 million years. But to the Elite, it is known by pure scientific evidences to happen in the area from 4 to 5 thousand years.

Of course, I'm way ahead on subject matter-----

SAVE THE WHALES! KILL THE SEALS! SPRAY THE WEEDS! BOIL THE MILK!  
RECYCLE THE PLASTIC! or COMPUTERIZE YOUR CAR! LEGALIZE DOPE!  
TERMINATE THE INDIAN! BUT SAVE THE ANIMALS!

From all of this, there has to be some type of reason or logic, but for the life of me, I can't seem to find it.

conditions

instituted
