

## THE GIFT

I've been known to speak a phrase, whenever I hear the word- H O P E ! because indirectly, it deals with the reason a traveling Indian brings a GIFT. As , many know, it is a custom of the American Indian to exchange gifts whenever he or she is received into a home of a kind stranger.

But this custom in the beginning after the second contact with the White Man, earned us, the classification of being called: LOS SIN DIOS or Those Without God. It was later shortened to INDIGENA or INDIO or INDIGENOUS - to where ~~and when~~ in modern history, we are best identified as INDIANS all because of this custom of exchanging GIFTS.

To bring a GIFT means you are without GOD, so states events and circumstances of past history ~~as~~ <sup>on the</sup> American Indian.

But it is these events and circumstances that cause me to state a phrase:

H O P E I S T H E P U Z Z L E O F F E A R

A word from this phrase, is ideologically, the medium between reality and fantasy, that has contributed nothing to neither, therefore it is widely accepted as the answer for an unknown solution to the short-comings of both.

Also, this single word identifies a lifestyle that marks or draws the Epitome to both REALITY and FANTASY, when, both have discovered, there is no mountain-top to be reached, after arriving intellectually at----- THE PLACE OF NO RETURN!

This word, from the phrase, is an excerpt from present-day religious writings, that was changed from its original word, skillfully and quite intellectually, so that it might become a religion or an attribute to a religion, when personal events and circumstances required a spiritual teaching that promised a phenomenon as the final outcome.

I'm speaking on this word for two(2) reasons. (1) Because it deals with your spiritual steps and why it, <sup>NAC</sup> changed is directly linked to the
