CELESTIAL BODIES and SPACE in theory.

It was so UNIVERSALLY used among all Indian tribes of the America's and UNIVERSE in theory because in its construction and context, ~~was~~ it could not be GLUED or NAILED or BOLTED together.

The GIFT was also a UNIVERSAL PRAYER and was quoted by everyone in the tribe and was a UNIVERSE PRAYER because it could give a demonstration on the CREATIVE FORCE OF THE CREATOR, which traditionally is and will always be the beginning of all wisdoms.

But by Ancient Tribal Custom and Usage, the GIFT was also a small Child's TOY. The TOY was so Intriguing because of its one law to its function, that it was treated with great respect by the child.

But getting back to this one word from this White Man's phrase, just what is it?

H O P E !

To desire, wish, want. To have a desire accompanied by an expectation. It cannot be a gramatical anomaly to the White Man's society, so HOPE would have to be a type of a personal fear, where circumstances or events would be almost impossible to overcome, so there would have to be an Intellectual concept, as the Epitome for all impossibilities so one could remain in a classified grade to ~~the~~ society.

So a GREEDY, or a VIOLENT or a CON-MAN does not know how to HOPE, yet HOPE can be connected to every tangible and intangible concept to the lifestyle of the White Man.

Most everyone knows this word can be found in the civilized christian Bible, yet everyone thinks on it, to their wildest dreams and expectations.

F A I T H , H O P E , a n d C H A R I T Y .

An Attribute that everyone is to practice in their daily life or on Sunday only, according to your intellectual depth.
