

THE QUESTION

How did the Ancient American Indian arrive at the mathematical figure of one day making up 181 parts?

It begins where everyone in a religious self-righteous position, will dogmatically will claim that one CREATOR'S DAY is 1,000 years or 1,000 years is as one day. From this they assume this means 365,242,198 days a year totaling 365,242,198 days is this time.

If we go to THE CREATION STORIES and every make-shift religion has one, it took the CREATOR 2,191,453.2 days to create heaven, Earth, Stars, Universe, and all life on the Planet EARTH. Then turned around and rested for 354,242,198 days.

This not a miraculous GOD, but a human being playing around with germs in a test-tube. Its like saying, GOD travels in a Horse and Buggy and would never get inside a Lincoln Mark because it would be a sin.

If an Ancient reads the civilized christian Bible and runs across these verses on this 1,000 years, he or she knows instantly that this was an Ancient equation given by the Isrealites to the adopted Jews because they were trying to explain TIME as a science and not a reference point or what you see is not always a science. You find no other equation in the civilized christian Bible, Sanhedrin or otherwise.

To find out the exact time, lets begin at the beginning.

From before the days of Julius Caesar, it is a known scientific and anthropology fact, that all Ancient tribes teach that TIME is a science and not a point of reference, and that each strand or current of TIME contains 12 individual powers and these 12 powers are one(1)

Now, LIGHT is a by-product of TIME. These 12 powers have a duration with LIGHT. It is taught traditionally that the CREATIVE FORCE of the

How did the Ancient American Indian arrive at the mathematical figure of one day making up 1831 parts?

It begins where everyone in a religious self-righteous position, will dogmatically will claim that one CREATOR'S DAY is 1,000 years or years is as one day. From this they assume this means 365,242.198 days a year totaling 365,242.198 days is this time.
