

and 1949, there is nothing or any articles that state, a country can release PRISONERS OF WAR before a Treaty has been signed. The Dakota Sovereignty defeated the United States in wars and met to sign a Treaty of Peace, but the U.S. tried to use PRISONERS OF WAR as the Main writers of the Articles and the Dakota Sovereignty wouldn't buy the idea so they went into Exile. North Korea and Viet Nam does not have to return any PRISONERS OF WAR because their is no Treaty.

So, Indians on reservations belonging to a Autonomy=type of Government will remain PRISONERS OF WAR till the United States sits down and signs a Treaty with the Dakota Empire because the U.S. did get defeated and wanted to sign a treaty of peace.

There is one violation that PRISONERS OF WAR can use to correct their legal state. In the slaughter of Wounded Knee 1890 which was the Dakota Sovereignty, the United States used PRISONERS OF WAR to accomplish this in direct violation of the Geneva Convention.

How do I know about these events? My Grandmother was born in exile and survived the slaughter at Wounded Knee 1890.
