To prove that Man is born of SATAN, an animal after all, his pretensions to reason delusory (a false, irrational, and persistent belief). From this it follows that man has not the right to claim the biosphere for his own.

The environmentalist movement of today follows straight from this variant of Jesuit Theology, and JULAIN HUXLEY'S theory and viewpoint identifying that Christianity and Evolution are identical.

Following this viewpoint, it's success depended on how well prior world history could be wiped off the face of the Earth.

The Inquisition was highly successful in wiping out all languages, schools, and sciences of this prior period in world history. The only problem left, was to destory all peoples that remembered this period in time. It took only 32 years to kill 100 million Indians that knew about this period of time due to treaties.

All that was now left, was to rewrite world history for the rest of the world to believe and uphold.

This was done by an Organization, that the present as well as the old world have no evidence or references ever existed
