WILL THERE BE A GLOBAL CATASTROPHE? HOW CAN YOU BE SURE, THERE HAVE BEEN MANY PROPHETS OF GLOOM IN THE PAST ALL PREDICTING THE SAME THING?

How very true! Consider this. Each of these Prophets of Gloom were not concerned with what would happen to mankind as a whole or to the magnitude of such a catastrophe-its outcome or how to overcome the conditions of a global catastrophe. These alleged Prophets had to come to a turning point in their spiritual life that was not easy to face, just as present-day searchers who are going to the far-corners of this Planet Earth, hoping to find the continuum to their spiritual life and beliefs.

HOPING is the key word here. The civilized Gospels of the Bible state that the greatest gift is to have CHARITY. It mentions FAITH, HOPE, and CHARITY. These three concepts came originally from the GAU. In all Ancient times the GAU was used to prove all things spiritually. Even after the destruction of well over 90% of all Ancients, torture and beatings for long periods of time, Ancients would not give the secrets to the rituals to the GAU. The destruction of the Aztecs is your modern-day evidence to this fact. The meaning to the three-sides of the GAU was WISDOM, POWER, and LOVE. It was APOLLO who substituted the word WISDOM for FAITH, POWER for HOPE, and LOVE for CHARITY.

HOPE is an Old English word(Hopian) meaning to desire something and expect it to happen or receive it.

This is not faith which has been changed from original meaning.

Any old Ancient Traditionalist, will tell you that HOPE is the puzzle of FEAR which is another Old English word(Fær) meaning peril, or sudden attack.

FAITH. There could be a debate as to whom this- expression belongs. It is combined between OLD ENGLISH and OLD FRENCH.  
 (first level) An energy in a form of disturbance, pressure, and density the act and result of the action, growth.  
 (second level) It identifies a specific religion (civilized christian) To believe without any spiritual promise, code, or law- and cannot be use in any spiritual rituals.
