

what is about to happen, tell the new convicts to take the Drugs that are, readily available to overcome what is about to happen. These new convicts come back with the same arrogant answer one hears on Television today. "I DON'T TAKE DRUGS OR DOPE!" You must first experience this real mental stress procedure where you know beyond any question of doubt, that the Drug problem of the world is not a FAD but the evaluations and conclusions made by Doctors of Psychology on mental stress points which they have found those parts in the civilized lifestyles that can be used.

PICTURE WITH ME THE FOLLOWING IDEA AND STORY (but keep in mind that the evaluations and conclusions have been made on isolation of the mind and how to overcome the stress. These tests were made as a study and not for real. Watching professional inmates on how to overcome this stress that is only to a small degree, duties and working is not one of them because it makes them violent. A study, everyone knows it can stop at anytime. Not is the case for real.)

We now have the Staff who are protecting the members of these White Dominant Governments, underground who are unable to see or feel day or night, but perhaps picture it through T.V. monitoring. The Staff full of Drugs and Dope carrying out their duties.\*

\*somehow one gets the feeling that these White Dominant Governments have not been told everything. Such as, Drugs used under confined conditions, makes the user rebellious and independant, from where it receives it. The user sets up to control the distribution of the Drugs. CONCLUSION! The User becomes rebellious and independant who not only wants to control the distribution but control the ones that have the Drugs.  
I was confined in one prison where inmates distributed Drugs to the local city near the prison and dictated terms to prison Officials.

The Staff or Trained Technicians having all the women or men, whatever might be the case, for their personal pleasure. Plenty to drink, tennis, golf- you name it. SUDDENLY! Staff members go Banana's! Other Staff members go into rebellion, to seize and control this Underground City.

If this poor dumb Sioux boy from the Plains of South Dakota knows these psychological facts, then these Dominant White Governments must know them too.

This leaves one alternative left. Don't try to present to the world
