As stated, it is not easy to choose the gift of the Prophet. My interpretation to what makes a Prophet, may conflict with accepted civilized rules and procedures but take this into consideration, my opinions are that of an Ancient descendant who must go by laws that created the first Prophet from Commissions handed-down from the CREATOR, GREAT SPIRIT.

HOW IS THIS? Because the Indian with his or her Medicine Wheel, Prayer Wheel, Times of the Serpent and Clan Equations, and the Gau prayers to the CREATOR, GREAT SPIRIT are done as prophecies, yet they are not Prophets.

To explain the PROPHET from the concept of an Ancient mind to readers that are a civilized mind, one must keep in mind, they are two separate different worlds of a lifestyle and one has to always remain on the Logic Bridge so that communications will not be lost. If the civilized mind understood this, eyes of understanding would be opened to a new wisdom.

Let me give a small example which anyone that has been around the Indian has run across this situation.

When an American Indian marries a race member of White, Black, Brown, or Yellow background or ethnic, the marriage does not last because what had been said by the Indian does not interpret the same by other races, and the same rule applies the other way. This may not agree with other races but let this be the test that shows how much of your original culture has been lost and destroyed.

No matter how well an Indian tribe has accepted the Patriarch Society system including the Tribal Enrollment, they are Matriarch Society by Genetics and cannot hide it. The woman rules and is not equal to the man, but above and over the man.

No other ethnic race or group can make such a claim. Just on this
