

THE WOODEN INDIAN IS STONE

The old wooden Store Indian, placed outside the early General Store which was suppose to help sell Cigars. It became part of the American scene as a coverup to hide and make secret an Archaeology find which could never be released or permit the General public know its contents.

The General public to this day, does not know of its contents. Neither do Indians. Have you ever noticed that the American Indian is not brought into the arguement about Darwin's theory. This Indian Archaeology find put to sleep, Anthropolgy, Archaeology, Geology, and Antiquity for over 40 years. If this find was ever released, these sciences would have to change the platform of their academic teachings.
