

to mean MAN. While this translation was being accepted by antiquity scholars, it was suddenly discovered that the Seneca Indians of today had two divisions to the second creation. ON'GEE and HON'JI. The light or enlighten- and follower.

Today these words describe the differences between the white and black man of the second creation.

The GAU and its use as an Ancient Mathematical Machine still remains a mystery today but it was used on PRAYER WHEELS, SEASON RITUALS, and Clocks such as the AZTEC STONE and others. The Indians of Atlantis used the word GAU'HI to describe this Ancient Machine. The Seneca Indians of today used the word GAU'HI when they describe a ghost. But there is no word for ghost in any Indian language, so what had the meaning of the word been changed too? After some research and meeting a German descendant Engineer and Scientist, he told me what it means. GHOST is a German word meaning SPIRIT.

The Ancient Languages of KII, pronounce and write words pretty close to the way many of the tribes in the Iroquois Confederacy today.

The concept of GHOST now used by Indian tribes is recent. It is used to steer the Indian away from old ancient ways, under the emblem that these ways have failed. It is the first step going up to becoming the CRO MAGNON or NEANDERTHAL MAN or WOMAN and carries most of the rituals found in the ancient religion of ISIS.

Show me a tribe of Indians that use slang words for the concept of a GHOST and I'll show you a tribe that no longer knows their Clan and no longer recognizes the Woman of the Clan who is the true Territorial Landlord according to Treaties and International Law.

The STONE INDIAN has now become a WOODEN INDIAN, who was craved from a matter foreign to its existence. It least while it was stone(fossil), it was matter that had been changed because of a great migration.
