Just how much does the civilized world Antiquity Scientist know about American Indian TIME WALKERS?

They know that the WINTER COUNT has something to do with it and every leader of a civilized nation since the days of Julius Caesar knows it.

Every MASON in every country in the world knows they did exist among Ancients and could exist today, that is why you will always find Indians who are MASONS, which is a hope after reaching the 32th. degree, that some other Ancient Rites from around the world, will awaken the Ancient knowledge within them. *of the Indians that are with them.*

But all know the conclusion to the mathematical equation that a TIME WALKER must travel by= THE PRESENT TIME minus THE PAST=equals THE FUTURE. They also know the TIME WALKER must travel through the PAST to arrive at the FUTURE.

It is also known, that there exists a WORLD RELIGIOUS CULT who have been doing a PERPETUAL PRAYER CHAIN continually for centuries, to prevent the reawakening of the knowledge, or the existence, of TIME WALKERS, who they recognize as the descendants of MU and ATLANTIS. While the <sup>Indian</sup> world doubts the existence, the PERPETUAL PRAYER CHAIN continues.

(( If we take the report: THE VERO and MELBOURNE MAN, by I.Rouse,))  
 (( Transactions of the New York Academy of Sciences, Ser.II, Vol.))  
 ((12.(1950)-----))

We now know these descendants are the Indian of the America's.  
 The Perpetual Prayer Chain: *It really must be translated to Medieval Latin and there are Scholars today that can translate it -*

"VIDE LICET, VIDE ANTE, VIDE INFRA, VIDE SUPRA, VIDE UT SUPRA, VIDE POS

An American Scientist translated this for me and when I tried to match it to an old Indian Ritual for TIME WALKERS, but it would not match or come out, so with a limited knowledge in Latin, I retranslated it myself. My disagreement was with the word VIDE which was translated as SEE. Even scholars stated it should be SEE. But Latin is precise when it comes to Rites or Rituals, then it translates- VIDE as a Command to Sing to See,
