

Time passes quickly for this group. Some of the members have gone out into the danger area to return with this strange mud which has been placed on the walls of these caves and made over houses because for a short time it gives off a light which the children find ever fascinating. These children spend time drawing and putting down their Clan Teachings on this mud which is beginning to harden on the walls.

But there is a decision made among the wise Elders and Clan Mothers for this group. They have concluded that the time is near or here, in which everybody can leave and return to the surface of the Earth. From within these safe places, the Earth outside appears to be calm but it is this strange mud that has not changed its form that is the concern.

There has been a test for such a situation from the beginning of time for this tribe. The first group members for the test leave but return sometime later (NOAH, is was the Raven; HOPI, is the Kachina; IROQUOIS, it is the Falseface; CELTICS, it is the Wee Little People.) Some time later, it becomes the Medicine People who leave for the outside who also return later stating that in a given number of days the power of the Migration will be completely gone from the Earth.
