

If this will help, Mercury is 36 days beyond the place that Julius Caesar started,

Venus is 109 days beyond,

Mars is 50 days and 20 hours before,

and Jupiter is 3.60552 years before

that gave him the power to keep his descendants hidden and secret.

I'm always amazed at the concept that religious leaders present to their followers. God will strike dead anyone that comes into the HOLY OF HOLIES that is not religious, righteous, and the restrictions can go on and on.

The American Indian will not reveal the true restriction because many have become part of the only(one) restriction. The violation of the Clan Law. In this violation, descendants become members to the Eel Clan and remain there for two generations and must not violate the law for this period of time and then can become their true Clan.

To come into the alleged HOLY OF HOLIES, you must know your Clan and tribe, and removed any violations to the Clan Law.

For this reason Indians cannot convert anyone to their religion. To convert anyone that has not been adopted into a Clan or does not know their Clan, becomes the unpardonable sin, which the Indian will not violate.

Two that did come into the HOLY OF HOLIES can and does make for religious debate. MOSES and KING DAVID! There is no dispute that MOSES when he was in the Wilderness(Wilderness was a type of school)had to be adopted in order to attend the school. That is tribal law. KING DAVID who had a wife but was 'HOT' for a woman of the Isrealitie tribe, which KING DAVID was not to mix with because he did not know his true clan
