

- (1) To synchronize time so that one would be at a certain place at a certain time while a global catastrophe is taking place.
- (2) Each system is to be used through what is called: A GREAT MIGRATION and each system is different for a different period of time, like the MIGRATION TRAILS of the past have been different.

Legends clearly state, that the previous time, only ONE GREAT SERPENT was used on the keeping of calendar time, while the present time and date, uses TWO GREAT SERPENTS on calendar time. One (+) and one(-)

Such a concept or conclusion, staggers human imagination because whoever heard of- a positive force(+) without a negative force(-), or, a Car Battery that had only one pole to attach to the car; or, a huge Bearing weighing several Tons that traveled on a track for several miles, that American Indian legends state, was used by Ships that came from other Solar Systems, to land on. Now! What kind of ship will travel on one bearing and remain balanced?

As stated earlier, an American Indian expression or phrase of THE GREAT MIGRATION, can be translated into english words of civilized spiritual ETERNITY, or, the civilized scientific word for ICE AGE. Just where your thinking comes from, you can make a chose.

So, from the last ICE AGE to the present-day- Indian legends tell that the WIND, RAIN, SNOW, TIME, LIGHT, HEAT, COLD, MAGNETISM, and ELECTRICITY Serpents travel in pairs, which was not the same in the previous world before the last ICE AGE.

At the present time, any weatherman will tell you that there are two JET STREAMS north of the center of the Earth and two south of the center. The American Indian went as far, to build TIME BUILDINGS at the locations where the TWIN WIND and HEAT SERPENTS meet so they could be calculated. The TIME SERPENTS had to be expanded to meet the new world conditions. One 200 days of LIGHT that was (+) and one 200 days of LIGHT

(1) To synchronize time so that one would be at a certain place at a certain time while a global catastrophe is taking place. and each system is different for a different period of time, like the MIGRATION TRAILS of the past have been different.

'Legends clearly state, that the previous time, only ONE GREAT SERPENT was used on the keeping of calendar time, while the present time and date, uses TWO GREAT SERPENTS on Calendar time. One (+) and One(-) Such 2 concept or conclusion, staggers human imagination because whoever' heard of- a positive force(+) without a negative, or, Q Cnr Battery that had only one pole to attach to the center; or, the huge Bearing weighing several Tons that traveled on the surface for several miles, that Indian legends state, was used by Ships that came from other Solar\* Systems, to land on. Now! What kind of ship will travel on one bearing and remain balanced?

As stated earlier, an American Indian expression or phrase of THE GREAT MIGRATION, can be translated into English words of civilized spiritual ETERNITY, or, the civilized scientific word for ICE AGE. Just where your thinking comes from, you can make a choice.

So, from the last ICE AGE to the Indian legends tell that the 4-MIND, RAIN, SNOW, LIGHT, HEAT, COLD, and ELECTRICITY Serpents travel in pairs, which was not the same --in the previous world before the last ICE AGE.

At the present time, any weathermen will tell you that there are two JFT STREAMS north of the center of the Earth and two south of the center. The American Indian went as far, to build TIME BUILDINGS at the locations where the TWIN WIND and HEAT SERPENTS meet so they could be calculated. The TIME SERPENTS had to be expanded to meet the new world conditions. One 20-0 days of LIGHT that was (+) and one ZOO days of LIGHT
