

According to Ancient traditionalist by their calculations, light is traveling at 194,833 miles per second, but the Earth is still traveling for established infinitesimal cycles which has caused LIGHT to age according to these infinitesimal cycles which has decreased the speed of light to 185,995 miles per second after the TIME DIMENSIONAL CHANGE caused by the Planet VENUS. This is about 5 miles per second/^{slower} then the civilized method.

I personally cannot say that the civilized learning system has surpassed the Ancient teaching methods of my Grandmother who spoke no civilized language.

But then its easier to say LIGHT travels at 186,000 miles per second without knowing why.

Very recently, I called Scientist friends at Los Alomas New Mexico, telling that I know the TIME DIEMNSIONAL CHANGE caused by the Planet VENUS. I related the problem of the two space probes sent to VENUS which were both crushed when they entered, the Atmosphere. I stated they were not crushed, but sending data on a different dimensional frequencies which the civilized system had no componant or equiptment to receive it.

I said, that it would be worth a NOBAL PEACE PRIZE to show how to calculate this dimensional change.

I was told that such theories existed among the world scientist and, that it was no secret that ^{they knew} the Ancient Indian knew how to separate TIME out of LIGHT which the civilied had been working on. ~~it would be considered in projects that deals with the subject.~~

If I would send in my paperwork, then something could be worked out, but only those who are qualified have the right to send such calculations in, for a consideration for a NOBAL PRIZE. ~~I would be considered in any projects that dealt with the sub~~

I held them off, by stating such information had been given/second-hand by an Old Ancient Indian who spoke, wrote, and read no english.

In the 20 years of travels, I have been asked a certain question. An exact question asked by Young people in high finice in New York City; Movie S

is traveling at 19,833 miles per second, but the Earth is still traveling for established infinitesimal cycles which has caused LIGHT to age according to these infinitesimal cycles which has decreased the speed of light to

185,995 miles per second after the TIME DIMENSIONAL CHANGE caused by the Planet VENUS. This is about 5 miles per second/then the civilized method.

I personally cannot say that the civilized learning system has surpassed the Ancient teaching methods of my Grandmother who spoke no civilized language.

But then its easier to say LIGHT travels at 186,000 miles per second without knowing why.

Very recently, I called Scientist friends at Los Alamos New Mexico, telling that I know the TIME DIMENSIONAL CHANGE caused by the Planet VENUS. I related the problem of the two space probes sent to VENUS which were both crushed when they entered, the Atmosphere. I stated they were not crushed, but sending data on a different dimensional frequencies which the civilized system had no component or equipment to receive it.

I said, that it would be worth a NOBEL PEACE PRIZE to show how to calculate this dimensional change.

I was told that such theories existed among the world scientist and,

___ they knew " that it was no secret that/the Ancient Indian knew how to separate TIME out in, consideration for a NOBEL

by an old Ancient Indian who spoke, wrote, and read no english..
