

But for you Astrology, Antiquity, and Anthropology Scholars and Scientist who have spent years and Billions of Dollars trying to make the Earth synchronize in orbits with, Mercury, Venus, Mars, and Jupiter- FORGET IT! It never happened. For a good reason.

The American Indian knew by the orbit comparisons at a given point the number of years that had passed since an event.

Just what the event could possible be, you would have to understand of Ancient traditional Indian thinking and it would surprise alot of people.

Now! The event plus the Planet orbit comparisons, is the FUTURE! The FUTURE to what? Again we come to the Logics of the American Indian and what event could possibly have top priority that would satisfy human desires, spiritual fulfillment, and the completeness of a human life span.

Every scholar, scientist, and government Official that is working or did work with the Indian and collected data can see it but cannot explain or understand it.

THE INDIAN IS WAITING FOR AN EVENT TO HAPPEN, THAT HE OR SHE CANNOT EXPLAIN.

Whatever this event could possible be, it has top priority and cannot be superceded by money, wealth, religion, or human sexual fulfillments.

I have seen many Indians play the imitari imago game of the White Man but when it came time for advancement into the world of no-return, the Indian responded to Tribal Genetic Commands by going on a journey in which belongings, wealth, money were thrown away including marriages to nonIndians, not because the Indian did not love this individual and Indians do have a hard time turning off love for an individual, but because the unknown event had top priority. But the tribal gentic top priority does not stop just where Indians exist on reservations because the unknown event has legal continuum connotations and one does not need an Astrology Chart to predict what will happen.
