

WHAT DID THESE OLD ANCIENT TRADITIONAL INDIANS KNOW, THAT UNDER THREAT OF DEATH, I HAD TO TAKE NEW TEACHINGS AND NOT USE ANY OF THE OLD KNOWLEDGE AGAIN?

To find the answers, there was only the sciences of the white man to go by.

Picture in your mind, huge and fearsome looking Dinosaurs and Mammoth roaming the Earth. Man as an alleged descendant, looking and walking like an Ape making undistinguished grunts as the first spoken language.

Sounds pretty reasonable! A statement of fact that every Intellect has learned, is Man's beginning history on Earth. Yet! there is not one piece of scientific evidence or archeaology finds that can support such a theory, but to teach otherwise, would be attacking "MOM'S" Apple Pie and the Red White and Blue.

Let me present still another idea. Picture if you will, these huge awesome Dinosaurs and Mammoths roaming the Earth, with the Indian of the America's, living in peace with them. <sup>1</sup>These Indians are the same in body structure, lifestyle as the American Indian found today, Having the same song and dances, same knowledge of medicines, same knowledge of fruits and vegetables, knowledges on how to cure eatables and cooking with fire. Living with or among the Dinosaurs, they had to be a race of people that has remained unchanged since the beginning of time.

The scientific finds and evidence on this theory is in quantities that staggers human imagination.

We now have a conflict between;(1) certified scientific finds and evidence, and(2)what the civilized general public has been taught in Institutions of higher learning, is the beginning of Man's history.

When you compare the two against each other, it is absurd without basic logic.
