

The one question that civilized scientist asked themselves on the subject, could not be answered because the question answered itself.

"WITH THE PRESENT MORALS AND THEORIES, MANKIND WOULD HAVE TO PETRIFY AND NOT DETERIORATE WITH AGE....."

In a lay-man's language, we would have to turn to stone when one died.

But there is a scientific report that gives the reasons and the possibilities to how a global catastrophe takes place, which also matches American Indian legends.

- A) At present, there is no scientific evidence on a power or event that causes this catastrophe. There is only theories that cannot be supported by a known science.
- B) The report, SYNTHETISISCHE ARTBIDUNG, by Nilsson of Germany identifies the existence of an unknown science and pure logic gives the event as it must take place.
  - 1) This power would have to be such, to cause an entire Global Catastrophe that forced the world to begin a new lifestyle without any knowledge to the old one.
  - 2) This power that caused this destruction was violent and this violence would have to be at a MEGATUDE that it destroyed all knowledge and wisdoms of all past civilized cultures including those who may have came into this knowledge.
  - 3) This power would have to be in scientific elements not presently known by the scientific community.
  - 4) Because of present-day Archeology finds and their conditions, the power of this violence would have to be instant.

I have heard songs, watched dances, and listened to legends not only of other Indian tribes in the United States and Canada, but my own on the Sisseton-Wahpeton Sioux Reservation in which the National Guard and State Police burned our Tents, destroyed our foods and objects of the Ritual, and gave us a good beating in the year of 1936 for relating the same facts given by Nilsson in SYNTHETISISCHE ARTBIDUNG, making one believe, he could have been there on this last time ritual. Could have been! I'm not saying he was there, only his scientific conclusions matched the legends of my people.

The one question that civilized scientist asked themselves on the subject, could not be answered because the question answered itself.

THE PRESENT MORALS AND THEORIES, MANKIND WOULD HAVE TO PETRIFY AND NOT DETERIORATE WITH AGE... \_."

In a lay--man's language, we would have to turn to stone when one died.

But there is a scientific report that gives the reasons and the possibilities to how a global catastrophe takes place, which also matches American Indian legends.
