

There is not One Institution of Higher Learning; One Geologist or Archeologist or Anthropologist or Antiquist in the whole-wide world that dares to present THE VERO and MELBOURNE MAN as it should be scientifically because it would go against the long established teachings on an Ice Age and the PLEISTOCENE AGE THEORY would have to be discarded from the civilized educational system.

Just on the Archeology Find and conclusions of the VERO and MELBOURNE MAN alone, it has become a passion and mental drive to remember old American Indian legends told to me as a child and to seek out other tribes, aboriginal in lifestyle, who tell of legends on the Long Journey.

My poor Ancestors, who told the pure scientific truths and facts and their sayings were presented as Mythology and stories of an Uneducate tribe who had no sciences because the lack of a written language.

Somehow, Somewhere, Someone has to pay the dues for this. It can no longer remain hidden or presented in a new twisted fashion or science or completely omitted from the sciences of the world.

The most studied and written about one subject in the world must be presented as that culture who had all the sciences that the present civilized world is seeking to learn. Just because the present-day Indian descendants do not have this knowledge, the blame can only be presented as " THE DESTRUCTION WAS DONE SO THAT ONLY THE CIVILIZED WOULD OWN THE COPYRIGHT TO THIS KNOWLEDGE."

1-VERO and MELBOURNE MAN, I. Rouse, Transactions of the New York Academy of Sciences Ser.II, Vol.12(1950)

The Smithsonian Institute of Washington,D.C. and the Department of Anthropology, United States National Museum tried to bury the following:  
 THE ASSOCIATION OF HUMAN REMAINS AND THE EXTINCT VERTEBRATES AT VERO FLORIDA.;  
 PRELIMINARY REPORT OF FINDS OF SUPPOSEDLY ANCIENT HUMAN REMAINS AT VERO FLORIDA,  
 Journal of Geology, XXV(1917);  
 ANCIENT MAN IN FLORIDA, J.W.Gidley, Bulletin of the Geological Society of America,  
 Vol.XI;  
 FOSSIL MAN IN FLORIDA, J.W.Gidley and F.B.Loomis, American Journal of Science,  
 5th. Ser. Vol. 12.

Archeologist or Anthropologist or Antiquist in the world that dares to present THE VERO and MELBOURNE MAN as it should be scientificall because it would go against the long established teachings on an Ice Age and the PLEISTOCENE AGE THEORY would have to be discarded from the civilized educational system.

Just on the Archeaology Find and conclusions of the VERO and MELBOURN

MAN alone, it has become a passion and mental drive to remember old American Indian legends told to me as a child and to seek out other tribes, aboriginal in lifestyle, who tell of legends on the Long Journey. My poor Ancestors, who told the pure scientific truths and facts and their sayings were presented as Mythology and stories of an Uneducate

tribe who had no sciences because the lack of a written language.

Somehow, Somewhere, Someone has to pay the dues for this. It can no longer remain hidden or presented in a new twisted fashion or science or completely omitted from the sciences of the world.

The most studied and written about one subject in the world must be

presented as @ag culture who had all the sciences that the present civilized world is seeking to learn. Just because the present-day Indian descenda`rrt's' do not have this knowledge, the blame can only be presented

as " THE DESTRUCTION WAS DONE SO THAT ONLY THE CIVILIZED WOULD OWN THE COPYRIGHT TO .THIS KNOWLEDGE." '
