

The concept to be presented on TIME is in hopes it will awaken another part of the mind which should recognize the existence of these tribal genetics.

An example will be given in hopes that it will show that your life is being governed by unsynchronized time.

This example is to see if that part of your mind can wake up to another part of your existence. I don't care how many educational credentials you carry or if you are a scientist or what, if you can't see the TIME problem your mind is dead and you are the descendant whose prior generations violated the Clan and Genetic code to many times, making you dead spiritually.

Lets use January 1, 1980 A.D. 12:00 A.M. or Midnight on New Years Day. How come New Years Day didn't start on January 2, 1985 at 4:54 A.M.?

You did add a day in the year 1984 but took it away in the year of 1985 so you are 1 day and 4 hours and 54 minutes out of synchronization with TIME in 5 years.

If you can understand this, then you know that the science for keeping calendar time is in error because of the formula. Ancient calendars are correct by showing January 2, 1985 at 4:54 A.M.

Next, scientist will state that because of the Leap Year Concept TIME is overstated by .88 of an hour because leap year day was for a full 24 hours and TIME was only 23 hours 7 minutes and 12 seconds.

Where does this funny TIME we are talking about come from?

It comes from the scientific fact that it takes the Earth 365 days 5 hours 46 minutes and 48 seconds to make one complete orbit around the Sun. So in four years this only comes to 23.12 hours, not 24 hours.

Don't feel bad or left out because presently Indian tribes are using the Gregorian for celebration times for Song and Dances. Is it any wonder the Indian has lost their spiritual strength. The Ancient Indian states this orbit of the Earth around the Sun only takes 363 days 1 hour 11 minutes
