

18:

THE ANCIENTS WRITE AS FOLLOWS :

THE CIVILIZED WHITE MAN WRITES :

TIME

He then explains scientifically, there are 60 seconds that make up 1 minute. There are 60 minutes in 1 hour. There 24 hours that make up 1 day. 365 $\frac{1}{4}$ days make one(1) calendar year. Every fourth year one(1) day is added to the calendar, called Leap Year and there are 366 days in a Leap Year.

He then makes a statement which has no scientific background or scientific back up or evidence.

L I G H T T R A V E L S A T 1 8 6 , 0 0 0 M I L E S P E R
S E C O N D .

From this one must assume that there is only one kind of light.

Next, T I M E , starts at Zero(0) at the Sun, so time is based from Sunlight.

I wish that TIME could be as easily explained from the scientific viewpoint of the American Indian culture as the White Culture, but can't be because there are many associations to other sciences that unite the theory of TIME which differs from the visible concept of TIME.
