Using the cycle of Time, called THE SERPENT; and THE WINTER COUNT TABLES, and bringing them down to a infinitesmal dimension, the description of the existence of what makes up the Sun becomes understandable.

The center which has a diambteref-32,001 miles and does not count in any of the tribal mathematical equations, has 12 powers which has been shown, called: THE RULE TO THE 12 POWERS OF CREATION.

Not one Ancient said there was any substance or matter in this part.

The shown art below represents 32,001 miles at the center of the Sun

Using the cycle of Time, calied.TI.{E SERPENT; THE WINTER COUNT TABLES, and bringing them down to ab infinitesmal dimension, the description of the existence of' what makes up the Sun becomes understandable.

The center whách has 2. diameeere:"-32,00l miles and does not count in any of the tribal mathematical equations, has l2 powers which has been shown, called: THE RULE TO THE l2 POWERS OF CREATION.

Not one Ancient said there was any substance or matter' in this part.

The shown art below represents 32,001 miles at the center of the Sun
