

Some time ago, an American Scientist in a discussion with me, asked a question on legends of the Traditional Indians.

"Quinn! Can you tell me why the American Indian worships the Sun?"

I replied:

"We do not worship the Sun! This is an incorrect assumption presented by Antiquity and Anthropology scholars who have been trying to break the literary trail to correctly present the mathematical equations making reference to the Sun. We do not worship but give recognition to the life and entities on the Sun."

"Quinn! I'm glad you said that for a very good reason. The scientists of the world have discovered and know beyond a question of doubt - there is life on the Sun. Maybe not life or life forms that one can understand but it has been uncovered how this life form does its sex act and perpetuates its generations. This life form travels around the Sun at great speeds. (we know that TIME travels around the Sun at 1,466,099.2 miles per second) This life form for an unknown reason, starts to accelerate its speed at such a speed, that it catches itself going around the Sun. Catching itself is the sex act. The moment it catches itself, it causes an echo and this echo goes off in another direction and becomes the new generation."

Now that is startling facts that only agrees with Ancient teachings. Lifeform that travels so fast around a circle that it catches up to itself and creates a new generation.

No wonder Ancient Indians make reference to this lifeform by calling it: "A CIRCLE WITHIN A CIRCLE."

So, Space in TIME moves at 1,466,099.2 miles per second.
 LIGHT residue in Space moves in TIME at 194575.4 miles per second
 LIGHT residue and Star or Sun LIGHT travels at 185,726.38 miles per second

All this is written by the American Indian as follows:

The Ancient's interpretation on the make-up of the Sun, gave birth to the 12 houses or 12 signs of the Zodiac.

Some time ago, an American Scientist in a discussion with me, ask
a question on legends of the Traditional Indians.

Can you tell me why the American Indian worships the Sun?"

I replied?

""-sie do not worship the Sun! This is an incorrect assumption presented

by Antiquity and Anthropology scholars who being trying to break the literary trail to correctly present the mathematical
equations making reference to the Sun. 'Ne do not worship but give recognition to the life and entities on the Sun."

I'm glad you said that for an very good reason. The scientist

of the world have discovered and know beyond da question of doubt there is life on the Sun. maybe not life or life forms that one
can understand but it has been uncovered how this life form does it; sex act and perpetuates its generations. This life form
travels around the Sun at great speeds. (we know that TIME travels around the Sun, at 1,146,099.2 miles per second) This life
form for an unknown reason, starts to accelerate its speed at such speed, that it catches it self-«going the Sun. Catching itself is
the sex act. The moment it catches itself, it causes an echo and this echo „goes off in another' direction and becomes
or „the new_ generation.

Now that is startling facts that only agrees with Ancient teachings.

Lifeform that travels so fast around a circle that it catches up to itself
and creates new generation.

wonder Ancient Indians make reference to this lifeform by calling

it: " A CIRCLE WITHIN A CIRCLE."

so, space in TIME moves at 1,146,099.2 miles per second. LIGHT residue in Space moves in at miles per second LIGHT residue
and Star or Sun LIGHT travels at 185,726.38 miles per sec
