I've spent over 20 years of my life, trying to find a solution for my Indian people by confrontations that re established old treaty rights. Before the people could enjoy these rights, they were given back. It was clear that the remaining Indian genetic families were the ones that could not reason in tribal genetics, so civilized concepts had messed with Indian genetics.

The question that my Cun'She asked me to leave and find the answer to can not be found in the legal rights of the Indian. The traditions that are practiced by the Indian, along with the rituals, are so far from the old Ancient ways, the answer cannot be found here either.

So much can be proven that the mistakes that have been made by Indians, past and present, one is led to believe Ancient Indians committed a crime that the civilized world would never forgive them.

But there is no evidence of such a crime. But there is evidence that such a crime was committed, not by Indians <sup>but by</sup> ~~the~~ civilized ~~but by~~ an ethnic ~~group~~ who ruled over the ~~civilized~~ for over 700 years which ended in the year 6204 Julian because the Gregorian had not been invented yet. <sup>the white man that invented Gregorian Calendar</sup>

If one converted the Julian to Gregorian years, 6204 would be 1491 A.D. and there were treaties with Indians prior to this time in history, so these treaties had to be dated in Julian years. Today, they are called: THE VATICAN TREATIES or BISHOP'S LAND. Spain, Mexico, and the United States because of the Treaty of Guadalupe Hidalgo could not omit them and still stand today.

So when the world converted from Julian to Gregorian years, only the Indian tribes had to deal in Julian Years which still stands today. How <sup>was alleged to</sup> MAN people know that Columbus discovered America in 6205? You can question the most-learned Scientist in the world and they will all state 1492 A.D.
