CHAPTER TWO
WHAT IS A PARA-LEGAL?

I'm not even sure this is^a correct title. The PARA-LEGAL denotes an unfinished profession, or vocation? or maybe even a hobby? So we can establish his profession has not to date, been properly named. However, his duties are precise and exacting.

A licensed attorney, who is a member of the Bar(ABA), permitted to practice law, represents an individual in a court of law, to fulfill a right that is guaranteed by the 6th Amendment of the United States Constitution. Almost every state in the U.S.A. has a law that prosecutes anyone that practices law without this license. A PARA-LEGAL is not licensed and will use the same laws, statutes, writs, motions, petitions of that of the licensed attorney, yet under a given legal situation of a client, the PARA-LEGAL can disqualify a licensed attorney from representing a client because this attorney will collaborate with the Prosecutor to convict a client because of a court-order issued by the trial judge. It is the actions of the trial judge who has issued this court-order that gives birth to the PARA-LEGAL, because this court-order is a grant of immunity and almost all grants of immunity can be shown to come from perjured evidence and statements, which is the only violation that can open a grant of immunity, however the trial judge in many cases will fight legally(using the Defense Attorneys)to prevent the accusation of perjury from entering into the records of the trial. What would now free a client/^{from}any further prosecution by proper legal form presented to the court by the client's Defense Attorney, the trial judge will now use the Court-order issued which your Defense Attorney is duty bound to obey as a "Officer of the Court." This Court-order is shown to the jury as they deliberate on your verdict, making it impossible for a not-guilty verdict.
