

of the 90 or so inmates free today, the knowledge of these laws does work. What of the hundreds still in prison that are innocent? Little can be done because, inmates are transferred under classified moves from prison to prison. Unless some organization such as the Law Departments of Universities publish a course in true PARA-LEGAL, these innocent convicts will serve their stiff sentences. Stiff is the correct term because, the Author's personal experience of those convicted under the Omnibus Crime Control or what is called "Organized Crime", not all, but most who are members of Organized crime, are doing 3,5, or 6 year sentences while those convicted in which the Judge, Prosecutor, and Defense Attorney knew the defendant was innocent received stiff 10, 15, and 20 year sentences.

No matter which way legal minds want to argue and save a dying profession, the PARA-LEGAL is reborn time and time again with every court-order granting immunity. With every new statute passed directly related to "Organized Crime." The Author is not against statutes that curb Organized crime, but is against Organized crime statutes that are used to convict innocent people. Because, this practice has created "Political Prisoners" and for a country that Motto's "The Land of the Free and the Home of the Brave" has more Political Prisoners than any other country in the world. The after affects are never ending because the PARA-LEGAL can be seen representing not only in domestic law but in International law. No matter what faults can be found in the structure of any nation, it has a system of law. In this system it can be found to have legal representation for the accused. Now, if the representation is limited by its' own conflict of interests, it is disqualified by PARA-LEGAL. Law is Law and is too exacting a science for anyone to use the excuse that no country lives by their laws. Take any country past or present, read their court-history
