

till 1716A.D. by the PETERBOROUGH MONASTERY.

In the BRITISH MUSEUM OF ARCHAEOLOGY FINDS, sits the SEPTUAGINT BIBLE, but also in this same MUSEUM, sits an Ancient translation of the Bible taken from the territories of the American Indian here that outdates or is older than the SEPTUAGINT by 2,000 years. (ref: HE WALKED THE AMERICA'S)

So the Indian of the America's has been learning about these writings 2,000 years before the White Man started to read the KING JAMES VERSION.

Of course, over 99% of American Indians do not practice this original religion because the United States Congress passed a Resolution on November 20, 1890 making this Ancient christian religion and its culture, HOSTILE to the United States. Of course they had been given new religions of WOVOKA, BLACK ELK, and HANDSOME LAKE, just as Spain gave a new religion to the India of Central and South America called ISATAI, after (Historians say) a few million Indians were killed. But Scholars say, it was closer to 100 million Indians.

Hell! COLUMBUS killed and this is documented, 10 million Indians in less than 10 years. He had the exclusive business of Fresh-meat supplies for Ships acrossing the Atlanic Seas. He was so good in this business, that nobody can find an Indian or Indian Descent in the CARIBBEAN today.

Let us find out what has been omitted from the New Christian Bible that was used by people that had the old translation and just how it dealt with history.

Let's begin with JULIUS CAESAR. According to Dynasty Records- PLUTARCH, i JUL. CAES. cap. 87; DIO CASS, xlv.; VIRG. GEORG. i., 406- Caesar was killed or murdered or died 45 B.C. Don't hold me to the year because the Gregorian years did not start till October 1582A.D. and October was the eighth month, so it was in August according to the Gregorian. But the JULIAN+ did not have the months of July and August. Also when scholars went back and changed the years to Gregorian years, from 1582A.D. to 45B.C. = 1629 years (OB.C. to OA.D.) there was 407 Leap year days, which would give us another year, so it would be safe to say, CAESAR'S death was in the year 44B.C.

Along with CAESAR'S historical identity, the name of CLEOPATRIA is synonymous. She is known as QUEEN CLEOPATRIA. There is one legal fact that is omitted in history that brought these two together.

To begin, JULIUS CAESAR was not Italian, but Greek as all Roman Leaders were. RHOMAIKOS is their proper ethnic identity who were Greek Royalty that escaped their own country, while the common people were taking over their nation.

QUEEN CLEOPATRIA was not a Queen, but a HEAD-Clan Mother for the White Kleopatria- Tribes who recognized the Romans as GREEK (for this reason all that
