

is written about the Alleged-Queen Cleopatra, is from Greek records).

So here was the Situation!

The Roman's who had hidden their identity from the Italians and had passed as Italians, was discovered by a tribal woman, as to their true identity and that was RHOMAIKOS or Greek Royalty. She wasted no time in telling the Roman Senate about a Treaty the RHOMAIKOS had signed with the White Kleopatria tribes 1000 years earlier; wanted the stipulations of the Treaty to be met.

It could be from this time in History, she acquired the title of Queen because the Roman Empire gave her authority to share the Throne with her twin-brother in Egypt. Of course they had to change her name. KLEOPATRIA was originally identified by the Greek, as people who steal. So the K was changed to C. KAPPA became CHI. From this we have the beginning of the Religious Cross where one could kill or murder under the Authority of SECUNDUM LUNE DETERMINABANTUR, to anyone that was tribal. American Indian Treaties wiped out this authority and all that is left is CORPUS JURIS SECUNDUM.

But it was the Roman Senate that believed it was JULIUS CAESAR that gave away the Roman's secret identity, and it is history that lets one believe, he fell under the spell of Queen Cleopatria because of her Beauty.

But this is in direct conflict with what has been written about Queen Cleopatria. She was not pretty nor was she ugly. She did have in perfect proportions, a woman's body that was considered perfect. A body that women of royalty would give away their Kingdoms, to have such a body.

But there was another side of JULIUS CAESAR that Institutions of Learning make no mention of. Not till one acquires the proper credentials and attends an INSTITUTION OF LETTERS, does one really gets to know JULIUS CAESAR.

The Documents these Scholars were permitted to review, took me decades to find through research and I can safely assume, one came to the same conclusions as these Scholars of Letters did. That JULIUS CAESAR was the greatest living ANTHROPOLOGIST and ANTIQUIST that ever lived and has not been surpassed to this day.

JULIUS CAESAR had come across the fact, that this Head-Clan Mother of the Kleopatria Tribes known as QUEEN CLEOPATRIA, knew about the Ancient knowledges on how to control and use the forces of nature, which CAESAR wanted because it would make the Roman Empire impossible to defeat..

But he was murdered before he was able to get this knowledge and
