

to feed a starving world.

On August 22, 357A.D. the tribal ritual was performed again only this time there was Earthquakes in NICOMEDIA, several cities destroyed in MACEDON and PONTUS. (Ammian Marcell, xvii.,.7.)

Two years later in the year 359A.D., the Roman Empire was again hit with this tribal ritual of darkness. By the year 360A.D., there was no growing food in the Roman Empire which included all of Europe and much of Africa. (Ammian. Marcell,xx.,3)

To get some idea, on what was happening at this time in History, we must go ahead in time, to the trials of the INQUISITION COURTS. There was a battle going on.

1. Tribal people had been "surpressed, oppressed, killed, murdered, and made Slaves of for almost 1,000 years by civilized nations. Not only by the Romans but the Greeks also.
2. Tribal people banded together to do battle because they had enough. Their weapons were, the Forces of Nature -v- Empliments of War, Armies, Navies, Forces of Polité and Mind control.

There was period of 48 years that Pèacè was given by Tribal Peoples so crops would again grow so starving people could again eat but this period also strengthen the Roman Empire. The Roman Army became like no other and there has never been another like it today! ROME'S ARMY, now called THE GUARD, when brought together as a fighting force, covered more ground than most large U.S.Cities today. In numbers alone; without weapons, they could take any large city or small country! They became polished and were now called: THE LEGIONS OF ROME. They had battle tactics that War Schools of today such as WEST POINT still admire the Tactics! Every Roman citizen and subject had to give, every other year, one year in the Armed Forces.

So if a Roman Citizen was 40 year of age, he had spent more than 10 years in the Army, and was still good for about 10 years more.

Early in 408A.D. it happened again, The Sun would come up in the Morning but there would be no Light and the stars could be seen during the day. In darkness DRAGON ALARIC conquered Rome's ENGLAND, FRANCE, and SPAIN: CONTINUED ON TO CONQUER ROME and than sacked ROME. According to Dynasty Historians(Chronil der Seuchen,Theil 1.,p.113) as ALARIC came before Rome to accept the Surrender of the Roman Empire, there was great a darkness so seen that the stars could be seen by day. According to an Archaeology Find in Mexico, etched on the walls, relating this event, states that DAKOTA Tribal Leaders were present at the signing of Unconditional Surrender by leaders of Rome.
