

So we have European HERETICS criminally being charge with the offense of HISDE. Because of the category of the offense, a guilty verdict would have be DEATH. Now, the HAGUE ACCORD did not legally become law till 1888, so the Death Sentence we now know was HANGING, BEHEADING, SCALPING, BURNING AT THE STAKE, and DISMANBING OF ARMS AND LEGS. for the men. For the women the slaughter of their children and themselves, their skulls sold as Drinking cups and their private parts as fish bait, except the Young Girls who were placed in concubere for the GAZEBOS of the privileged until pregnancy and were put to death.

Before we get into what the charge of-HISDE was legally, the INQUISITION COURTS will never be able to be accused of being unfair or unjust because to study the words of- AEGYPTIACUS and AEQUAEVUS and the three major court cases in the jurisdiction, European HERETICS were being accused by follow tribesmen. Unlike American Indians where 75% fall into the category of a sell-out, there is only one(1) class, while European tribes had three(3) classes of sell-outs. It is my belief, the sell-out European was the one that was sent here as members of a Penal Colony to escape the death penalty.

H I S D E is an Old French Language word meaning FRIGHT! (just like SIOUX is an Old French word, meaning a crazy drunk) To HIDE means to FRIGHT!

Because of the charge of HISDE, these accused were classified as R E N E G A R (Renegades) and were to be denied any legal court rights. because of this word, it created the first Police man starting with K O P to C O P which still means- TO CATCH, SEIZE, TAKE, and STEAL. At the time referred to tribal people and any property they could have.

All that was needed for the Prosecuting Attorney to prove, was the European HERETICS were the descendants of the White Tribes that defeated the Roman Empire back in 408A.D. who violated International Law by Frighting Soliders from the battlefields. Its a matter of documentation.

THERE THEY WERE, THE GREAT LEGIONS OF ROME. TO THE NORTH, EAST, SOUTH, and WEST, AS FAR AS THE EYES TO SEE IF THE SUN HAD SHOWN ITS LIGHT, TO DEFEAT THE SMALL BAND OF WARRIORS OF ALARIC.

SUDDENLY THE LEGIONS LOOKED UP AND WHAT THEY SAW, CAUSED THEM TO DROP THEIR WEAPONS. THERE WERE SHIPS OR VEHICLES MADE OF COPPER OR BRASS. They could go up and down, forward and backwards, by a wild bright orange fire shooting out the back of the ships which also fell to the ground that burned some of the soliders and grass on the ground which caused the Roman Legions to run from the Battlefields.
