

INTRODUCTION TO THE FOUNDATION OF INTERNATIONAL LAW

"It is of little consequence to me who you are because everyone here is a descendant of a tribe that makes up the Six Aboriginal Treaties that is the foundation for all International Law"

Meredith Quinn,
International Legal Advisor'
Registered with the United Nations

According to Medieval times, or before Columbus, American Indian Tribes of today were known as The Americus Empire which would cover Canes, Wampum Belts and Peacepipe Treaties.

All Asian and Minor Asian were under the Palladium Of Troy Treaty.

All Blacks, Arabs, and Isrealites were under the Seal Of Solomon Treaty.

All Saxon, Anglia, Mercai, and Northumbriith groups are members of The Kleopatria Tribe and are covered under Noah's Arc Treaty.

Every civilized nation in the world (is) governed by these 6 Aboriginal Treaties that makes up all International Law. From Noah's Ark, which is a Treaty and not a boat, to Pallidium of Troy, Solomon's Seal, Canes of Authority, Wampum Belts and Peacepipe Treaties comes the Law of Nations which has Clan Mothers who hold Territorial Right. The Third World are nations or governments that have no Territorial Clan Mothers, and they are the only Patriarch Society in the world. Any tribal society with Clan Mothers becomes the First World (who owe no allegiance to tribal autonomy governments).
