

## INTRODUCTION TO THE FOUNDATION OF INTERNATIONAL LAW

*"It is of little consequence to me who you are because everyone here is a descendant of a tribe that makes up the Six Aboriginal Treaties that is the foundation for all International Law."*

According to Medieval times, or before Columbus, American Indian Tribes of today were known as The Americas Empire which would cover the Canes, Wampum Belts and Peacepipe Treaties.

All Asian and Minor Asian were under the Palladium Of Troy Treaty.

All Blacks, Arabs, and Israelites were under the Seal Of Solomon Treaty.

All Saxon, Anglia, Mercia, and Northumbria groups are members of The Kleopatra Tribe and are covered under Noah's Arc Treaty.

(There could be an exception because American Indian Signatories due to the Te Deum of February 18, 1493 (Gregorian), 8206 (Julian), 9583 (Cali Yug) have not ever been given their credentials to travel among the Higher Archy of this world. However, there is rumor of a dispute of the past that could have caused this, when Julius Caesar was forced to recognize a Kleopatra Treaty over 1,000 years old by a Kleopatra Clan Mother in 4866 (Julian). This even is recognized as Queen Kleopatra in Modern History. The Secular Treaty Of Tordesillas of 1494 was to settle the issue from being discussed openly.

Èundation ñor all Internaïonal Law. "
