

## CHAPTER ONE INTRODUCTION

To the disillusioned, the hurt, to the believers that courts are a place where justice is past-out----or to the people that believe Judges have trials where all the rights of the United States Constitution are forgotten; come with me through these pages of legal facts and see for yourself - laws that make a Kangaroo-trial-a court of justice protected by the United States Constitution. Let me give you some established court-history that has to be overcome, so that a Kangaroo-trial can be held. If you happen to be interested in statistics that tell you how many individuals have been convicted by the so-called Kangaroo-Court system, REMEMBER!! prior to the passage of Public Law 90-351, all prisons whether ~~they are~~ state or federal, were one-half full of convicts. Today, prisons, ~~whether~~ state or federal, are operating one-third beyond their capacity ~~or prisons being full of convicts.~~

The convictions of Federal prisons can be seen in the following statistics. 1 out of every 800 convictions can be found to be a member of "Organized Crime" which is why Public Law 90-351 was passed by Congress. ~~that~~ is a percentage of .00125% of all the Federal convictions are actual guilty of "Organized Crime" and 99.99875% innocent, since 1970. Now, before any kind of Police work starts for this kind of conviction, a grant is issued under Local Law Assistance Programs. The smallest amount issued for these grants is about \$3,000,000 dollars per conviction. Lets take 800 convictions at 3 million dollars per conviction. That makes the sum of \$3,000,000 dollars spent to convict the guilty and the sum of \$2,100,000,000.dollars to convict the innocent(2.1billion). Legal Counsel can now draw from these programs and get ~~about~~ \$3,000. dollars per client conviction. Using the figure of 800 convictions, attorneys recieved \$2,397,000 dollars to convict their clients, who were innocent ~~and while attorneys~~ had knowledge of.
