

For these reasons, I wrote the book: SERPENT OR DRAGON-COMES THE DAWN, to show by the changing of Key words, this Individual would be in the same position, if someone was prayer to a Frying Pan. You can pray to any object and have spiritual power because total Commitment gives it, but it still leaves this individual stupid intellectually. The person that believes in these word changes is stupid and is a prime candidate for Mind Control.

The Indian did not escape this concept, having been given four Indian religions created by the white elite.

But let me show by recorded evidence how the world leaders set about to destroy evidence to this Ancient knowledge. I consider it to be current because the ending of some it and the Elite reproving it, was within my lifetime.

- 1) The Aztecs were destroyed in or around 1524 A.D., which is matter of historical record. The destruction of this religious practice was so successful in California, Arizona, Texas, and New Mexico that no documentation can be found. However, Temple steps to some of these places are still visible today and a complete temple that was destroyed by dynamite located about 10 miles North plus some of the Santa Clara Pueblo Indians still keeping their lineage to these Temples.
- 2) The next documentation is clearly visible but Indians are unable to piece it together. The following is matter of record.
 - A) While Sovereign Chiefs of Dakota Nations was on tour around the world escorted by Buffalo Bill, back in the homelands the United States Army had finally cornered the last true believers of the Ancient Indian Religion and slaughtered them. History records it as the THE MASSACRE OF WOUNDED KNEE. December 27, 1890 A.D.
 - B) It is a matter of Historical record that BLACK ELK was permitted to watch this slaughter because his New Indian Religion created by the White would have total success with other Indians.
- 3) As a small boy in the ending of the 1930's, I was present and attended the last one on the Sisseton-Wahpeton Indian Reservation, Sisseton, South Dakota, when the National Guard and State Police found our place of meeting, burned the tents, destroyed our foods, and gave us a beating. We were taken into town, ridiculed by whites and Indians from our tribe.
- 4) The fourth event or evidence has already been mentioned earlier on the Codes of Handsome Lake.
