

But the velocity of Earth in Orbit traveling at 18.52 miles per second is subject to a science yet to be discovered by the white man sciences. The Planet VENUS which called by a Clan name by Indians, rotates in the oppsite direction from the other planets in our solar system, causing a time dimensional change to the currents or strands of time which warps to 8,839 miles per second making visiable light seen by the human eye to be seen at 185,987 miles per second.

So we know that the civilized man's figure of 186,000 miles per second for the speed of light is taken from ours or some other ancient's records throughout the world because one cannot calculate the speed of light without using the time dimensional change caused the Planet Venus. But that too, is another subject.

So stories or Indian legends have an exact reason. they have to fit a n. We must teach our young to reason in relative logic and not in abstract, because his or her's learning period is so short.

"DON'T DO THAT OR YOU WILL KILL YOURSELF!"

ABSTRACT! Because we have assumed the child knows all physical sciences.

"YOUR DRIVING ME CRAZY WITH THAT NOISE!"

ABSTRACT! AND YOU'VE CREATED A GENERATION WITH A DIRECTION. To push the panic button for a nuclear war.

Next, Indian stories or legends are to teach our young not to make the same mistake we made in ~~personallife~~ our personal life.

I find no such teaching or science in the white man's world.

To present the idea as an American Indian that such a teachings is in a culture, cannot be believed by the white man, because it is assumed that such an intellectual concept could never exist because if it did they would have thought it up to be used.

second is subject to a science yet to be discovered by the white man sciences. The Planet VENUS which called by a Clan name by Indians, rotates in the opposite direction from the other planets in our solar system, causing a time dimensional change to the currents 01" strands of time which warps to 8,1839 miles per second making visible light, seen by the human eye to be seen at 185,987 miles per second. So we know that the civilized man's figure of 186,000 miles per second speed of light is taken from ours or some other ancient records throughout the world because one cannot calculate the speed of light without using the time dimensional change caused the Planet Venus. But that too, is another subject.

Se stories or Indian legends have an exact reason. they have to fit a n We must teach our young to reason in relative logic and not in abstract, because his or her's learning period is so short.

DO THAT OR YOU WILL KILL YOURSELF!"

ABSTRACTE Because we have assumed the child knows all physical sciences

"YOUR DRIVING CRAZY WITH

ABSTRACT! AND YOU"VE CREATED A GENERATION WITH A DIRECTION. To push the panic button for a nuclear war'.

Next, Indian legends are to teach our young not to make the same mistake we made in our personal life.

i find no such teaching or science in the white man's world.

To present the idea as an American Indian that such a teaching is in a culture, cannot be believed by the white man, because it is assumed that such an intellectual concept could never exist; because if it did - they would have thought it up to be used.
