

Sound pretty reasonable?

Something that everyone has learned to accept as man's beginning history, yet there is not one piece of scientific finds or evidences that can support such a theory.

LET ME PRESENT STILL ANOTHER SCIENTIFIC IDEA!

PICTURE THESE SAME DINOSAURS AND MAMMOTHS ROAMING THE EARTH, WITH THE AMERICAN INDIAN OR INDIAN OF THE AMERICA'S LIVING IN PEACE AMONG THEM.

THESE PETRIFIED INDIANS ARE THE SAME IN A LIFESTYLE, HAVING THE SAME SONG AND DANCES, SAME KNOWLEDGE OF MEDICINES, SAME KNOWLEDGE OF FRUITS AND VEGETABLES, SAME KNOWLEDGE ON HOW TO CURE EATABLES AND COOKING WITH FIRE.

THESE PETRIFIED INDIANS ARE THE SAME IN BODY STRUCTURE AS ONE WOULD FIND OF INDIANS LIVING ON RESERVATIONS TODAY.

SCIENTIFICALLY, THE BONES OF THE DINOSAURS AND THE INDIANS WERE TESTED AND FOUND TO BE THE SAME AGE OR PERIOD.

We're talking about an Ice Age. The scientific finds and evidences on this theory, is in quantities that staggers human imagination.

This is the scientific conclusions on what is called: THE VERO AND MELBOURNE MAN which was found in 1917. If you are a Romantic on Ancient civilizations of the past, THE VERO AND MELBOURNE MAN, I.Rouse, Transactions of the New York Academy of Sciences. Ser.II,Vol.12(1950), they know the time of the last Ice Age within two thousand years; that the Indians of today cannot be included in DARWIN'S theory of Evolution; the Governement knows what Indian tribes of today are either descendants of MU or ATLANTIS lost Empires.

THIS IS THE DUALITY

- (1) 90% of the present world population believes a Monkey of the past was fooling around and got an unknown entity pregnant from which came the races of the world today.
- (2) Because of THE VERO AND MELBOURNE MAN, the Indian of today cannot be included in this theory. That the legends on the Great Indian Migration by Indians is a detailed description of a global catastrophe that ends as an Ice Age, Governments know and have studied the last 5 migration trails, knowing them backwards and forwards trying to calculate how the American Indian as a tribal entity survived them without any fear.

Something that everyone has learned to accept as man's beginning history, yet there is not one piece of scientific finds or evidences that can support such a theory.

LET ME PRESENT STILL ANOTHER SCIENTIFIC IDEA!
