

DEAR DAWN,

The world of FRACTIONS is a world where a grown up person finds the world of success.. To know this world, makes you a person that directs people.

ALGEBRA, TRIGONOMETRY, CALCULAS, and HIGHER MATH are worlds of higher FRACTIONS, that are done in symbols, used in cracking probabilities and statistics, physics and chemistry.

I grew up in the world of Pythagorean Theorems, but it is a high probability you will start the Venture Theorem.

FRACTIONS deal with parts to a whole number. Like how many apples parts can you make? Each part is a FRACTION part to the whole number.

$1/1 = 1.$
 $1/2 = .50$ $2/2 = 1.$
 $1/3 = .33333$ $2/3 = .66667$ $3/3 = 1.$
 $1/4 = .25$ $2/4[1/2] = .50$ $3/4 = .75$ $4/4 = 1.$
 $1/5 = .2$ $2/5 = .4$ $3/5 = .6$ $3/5 = .6$ $4/5 = .8$ $5/5 = 1.$
 $1/6 = .16667$ $2/6 = .3333$ $3/6 = .5$ $4/6 = .66667$ $5/6 = .8333$ $6/6 = 1.$
 $1/7 = .14295714$ $2/7 = .28571429$ $3/7 = .42857143$ $4/7 =$

Adjustment made from December 31, 47B.C. at midnight to March 14, 46 B.C. at high noon comes to $74\frac{1}{2}$ days.
to Zero A.D.= 48 years times 365 = 17,520 + 12 days= 17,532 days

to July 1, 1751 = 639,115 437.75 or 1752 years = 639,553 days
plus 108 days to July 1 1752 = 639,661 days
plus 17,532 days
657,193 days

on July 2 it became September 14, 1752
But there were 16 days of no opping force
657,177 days

To June 19, 1779
It became June 2, 1779
9,768
666,945 days

Synchronized time would be May 17,1779 at 12:36A.M.
66.298344 days.

Synchronizing at Zero on May 22,1989 at 5:23A.M.
