```
To fill the pages of missing history, we have to use GREGORIUS ABU'L-FARAGIUS, which was the rewritting to present day history from it's beginning, after the filing of THE TE DEUM with the INTERNATIONAL COURT in Hague on February 18,1493A.D.
To begin, world scientist and scholars agree that, JULIUS CARSAR made a 90 day calendar
adjustment from the ANCIENT CALI YUG, in creating the ROMAN CALENDAR. The actual direction this adjustment was made from is what these scholars debate over. Did this adjustment
increase or decrease the number of days for that year?
GREGORIUS ABU'L-FARAGIUS start:
IDES[Full Moon]. TRIBAL TRADITION] Highnoon] Roman or Julian-IDES, full Moon and the 15th.
              46B.C.
