

has given up the old Ancient traditional ways in believing in the CREATOR, SPIRIT and GREAT SERPENT and taking on the belief of New Mortal Gods.

Just like the Indian Governments on Indian Reservations in this country.

If you were a Greek, the word GOD()has over 800 identities and would take a lifetime to fight your way through them.

If you believe in the Patriarch Society or that males of any family no matter where in the world, are the descendants to everything on this Earth and gets everything you got or have, then the word CREATOR had to be substituted for the word GOD. In this substitution, you had to agree not in ignorance, that as long as your male descendant got everything you really didn't care about losing your soul or the life after death because you really didn't believe it anyway. You made the agreement with you know who, or someone really sold you a bill of goods that left you out in the cold. Let me show you by spiritual writings that have been left out of the Book you will go to war over.

Taken from a translation of the word CREATOR, Second Book of GENESIS IEUE ALEIM(עֲלֵימָּוֹת) translation: Feminine, Mediate, to interpose for protection, to preserve Masculine who is to be a Mediator, an Interposer.

It is this translation that Indians of the America's state that they have followed the Commissions handed-down by the CREATOR, GREAT SPIRIT on how a nation, tribe, and a Clan is to be as a social order. The Clan Mothers are absolute Rulers who elect Chiefs who speak on their behalf.

I once read a book by a very notable author which I'm not, in writing about Indians made the statement; THE GREAT SPIRIT IS DEAD. I have to disagree with such a notable author. THE GREAT SPIRIT CANNOT DIE. We have died and for our death, we cannot blame anyone. We have the power of resurrection, to use our energies and spirit, to bring THE GREAT SPIRIT back to life.
