But getting back to the CADUCEUS, which is the sign of a winged, two snake-entwined pole used as a symbol of the medical profession, to the Ancient this sign or symbol was the flag of the Ancient Indian Empire of ATLANTIS. It gives the history and mathematical formulas of how the Indian survived from the destruction of MU to the present time at ATLANTIS using the equations of the two time Serpents that met in the sky. There are four such places on this planet Earth. I was privileged to see and visit one of these places and can be found at the MITLA TEMPLE RUINS, Oaxaca, Old Mexico. This is a Ritual, having songs and dances.

If you want to know about RITUALS, visit the CHALULA TEMPLE, Puebla Old Mexico. Here was a Temple that was built by Indians to do certain songs and dances in which the CREATOR, GREAT SPIRIT would show that the Ritual was heard by giving a sign that would be a phenomenon. The Spanish covered this Temple with dirt like they did with all Temples and built a Cathedral on top of the Temple covered with dirt. One can see some of the Temple stone blocks that have been used to build the Cathedral.

Having talked to some other tribes, it is agreed that the songs and dances are still known, but have not been performed openly because other tribal members do not want the old way to continue.

This also is a RITUAL and can be

found in the traditional Art and Beadwork of the BLACKFOOT, SIOUX, ARAPAHO, UTE, SHOESHONE, CROW, WINNEBAGO, SAUK & FOX, MENOMINI, TROQUOIS, HAIDA, PUEBLO, CLIFF DWELLERS, TOLTEC, AZTEC, MIXTEC, MAYAN just to name a few.
