

WHOSE THE SAVAGE, by Wilson

When GEORGE WASHINGTON and others, told the churchs to stop using human blood as a sacrifice in Christian rituals, and PAINE DOCTRINES were accepted as the new rule to live by, it was the 1830's when it was no longer the civilized act to go to the local Butcher Shop and buy an Indian steak, cook and eat it as a good christian. Much of the so-called; OLD MONEY from the East Coast, came from being paid for Indian Scalps. This bounty paid as high as \$12.00 dollars a scalp which was about 5 to 7 years of a persons income in those days. This is what Indians graduated from.

Bear in mind, that the christian religion brought from across the waters, leaders had to set aside one day aweek in which followers had to refrain from eating meat and pork. But it is PORK that is the problem for these believers ^{and} / it is refrained from for the following reasons:

1. To prevent the reawakening of the appetite for the Long Pig, which is human steak.
2. To prevent the young mothers from fighting over the New Born which are cooked and eaten.

Now back to the missing children.

Having traveled across a few countries and have some knowledge on how RED NECKS arrange, think, and run their societies, assuming they have not gone back to eating human steaks; cities with populations of 100,000 or less cannot be used (everybody knows everybody's else business) which now leaves major isolated cities left, to hide 20,000,000 children impossible. Even 10,000,000 children is impossible, this is even after given the benefit of doubt that these children cannot speak, write, or a mongoloid type.

If the children can speak, write, know how to use the telephone, and know who their parents are, 1,000,000 couldn't be hidden.

"OH! SOME OF THEM, IT IS BELIEVED, WERE SHIPPED INTO MEXICO."

Even if only 1,000,000 children were taken across into Mexico, the area would become one of the largest cities in Mexico.
