

If the killing of the Buffalo Herds in the America's (the smallest herd being 30 by 40 miles square) was so costly that private individuals had to pay the \$2.00 an animal and the killing of 100 million Indians that again private individuals had to pay the \$8.00 to \$12.00 a head; the United States had to pass by Congressional Acts, THE MONROE DOCTRINE so that these individuals and their nations could not claim the territories that they financed the killing and murdering of the tribal members who by a strange act of fate lost their investment;

If the Indian of the America's gave 80% of all fruit and vegetables to the world, in which history well remembers THE DEVIL'S FRUIT or the tomato which did get many hung for Heresy in the early days;

If the Indian of America's gave 80% of the monetary substance used as a medium of exchange throughout the world;

If the Indian of America's gave 90% of the medicine and herbs used by the medical profession throughout the world;

If the territories of the Indian of the America's of North and South America are used by every nation in the world to have comfort and wealth and yet none^{of} it passes down to the Indian;

If the United States Congress had to pass the act: THE AMERICAN INDIAN RELIGIOUS FREEDOM ACT of 1978 which in contents violates the First Amendment of the United States Constitution by recording all Indian Religious rituals from which a religious conclusion is to be made, then the religious information that is sought, should be given that killed 100 million Indians in the past, to see how many it will kill in the future.

It cannot be denied that the Indian will never be permitted to take its place among the nations of the world.

herd being 30 'oy 0 miles squar'e)was so costly that private individuals had to pay the \$2.00 an animal and the killing; of 100 million Indians that again private individuals had to pay the \$8.00 to \$12.00 a head; the .United States had to pass by Congressional Acts, THE MONROE DOCTRINE so that these individuals and their nations could not Claim the territoria that they financed the killing and murdering of the tribal members who by etrange ect of fete lost their investment; If the Indian of' the â.merice.'e gave of all fruit and vegetables to the world, in which history well rerne:nl'o:'s THB FRUIT er the tomato which di-Li get hung fer* Heresy the early Ef' the Indien .fmer'ica's of the subsisnce used es r-1 mediuim oi' exchange tite If the Indian of .i.merica's _ave of the medicine alud herbs used by the medical profession the 'if the territories of the indian of the sf' Biorth South America ere used by every nation the to have csmfsrt wealth _ _ _ and yet moment passes"downl to tne Indlan; If the United States Congress had to 'pass the act: THE RELIGIOUS FREEDOM which in contents violates the First Amendme of the Uñited States Constitution by recording all Indian Religious ritual from which e. religious conclusion is to 'oe made, then the religious information that is sought, should be "given that killed IOC- million Indian in the past, to see many it will kill in the future.
