

A F R I E N D

The American Indian had a friend. A true friend that they have never heard of, or ever knew he existed. Why? Because the existence of this friend has been completely erased from world history. Not by an accident but by a planned covert action which makes all world history for a period of about 1,100 years in error and not correct. This unknown friend set the legal patterns for all world nations that deal with Indian tribes and nations of America by establishing set rules to treaties.

To prove that no Indian has ever heard of and no Historian has not placed his existence in its proper time and place, I'll give you his name:

CLEFE ABDALLAH es-ZAGHAL. Moorish King of Spain thru 1491 A.D.
Ripley's Believe it or Not, 9th. Series, Pocket Book, div. of
Simon & Schuster Inc. A GULF+WESTERN COMPANY.

I believed such a friend existed even when references gave no possibility of such an existence, only that a possible country might show up at a later date because when on March 11, 1972 at 4:10 P.M. I presented to the church of Rome through the Missions in the state of California, AN INDIAN MANIFESTO occupied one Mission which by proxy occupied not only the Missions in Mexico and the United ^{STATES}, but wherever; Secular treaties existed.

When Mexico won its independence from the country of Spain and at the finish of the war between Mexico and the United States, the treaty of Guadalupe Hidalgo could not omit the conditions of these treaties.

Before the treaty could be final a long-drawn-out study costing many millions of dollars by the U.S. Department of the Interior was done. The complex conditions of this treaty had to be met because Secular treaties are precise on the fact that the Indian on these territories is the only one that can be a citizen. No others!

The following pages are an exact copy of this Manifesto which will surprise you on the exact stipulations. Remember there are only 8 here out of hundreds which frighten many because of its demands that had to be met.
