Just what does the civilized scientist of the world formulate as LIGHT?

Scientifically, it is RADIANT energy within the wave lengths limits

↓
(Latin-RADUARE-emit rays. In physics, a stream particles or waves)

↓
(Latin-RADIUS-mark with rays or radiating lines)

perceptible by the average human eye(roughly between 400 to 700 Millimicr transmitted by wave motion with wavelngths from about .3uM to 30uM. This includes visible wavelngths.(.38uM to .78uM)

If the Indian of the America's state in their physic laws that LIGHT is a by-produce of TIME, then TIME was an Ancient Science which by equation calculated how LIGHT is produced. It is this calculation that gave way for a name that has become synonymous with EVIL, SOMETHING THAT HAD TO BE DESTORYED, UNGODLY.

In BCRA'S injection of Egyptian Creation stories called: THE PENTATEUC which was originally written by OSIRIS and ISIS, you can now assume that back in civilized history, they too, had trouble with a people that TIME was a science in their culture.

When an alleged Saint killed all the snakes in Ireland, it was not the reptile kind but: the human kind.

On this part of the Earth and world, the Indian was originally called LOS SIN DIOS! "Those without God."

100 million had to die because of this classification. Today it has been discovered the Indian did have a God and it was the first Original One. The following page is that calculation and a drawing of the Ancients to the science of TIME.
